

EQ360°

EQUINITI

COVERING REVALIDATION
FROM EVERY ANGLE

THE IDEAL SOLUTION FOR NURSES' AND MIDWIVES' REVALIDATION

Equiniti 360 Clinical is a specialist provider of nurse and doctor revalidation systems. Backed by Equiniti's experienced revalidation experts, our revalidation software, EQ360°, is a custom built, cloud-based solution that enables healthcare providers to meet their revalidation obligations in a way that assists, not hinders, nurses and midwives.

Guiding your nurses through the process in a simple, supported and easy-to-follow way, EQ360° is the only product on the market that can provide

organisational appraisals to all clinical groups. Ranked by nurses as the easiest and quickest system to perform revalidation, EQ360° enables the effective documentation of required hours of practice, required feedback and revalidation confirmation.

KEY FEATURES

- System covers all revalidation requirements including future system upgrades
- 'How to' videos within EQ360° – supporting your nurses throughout the process
- Technical telephone support provided
- Links with NMC PIN system
- Fully protected by ISO27001 accredited data centres
- Cost-effective and easy to implement

'How to' videos guide your nurses through every step of the process, making EQ360° easy to use

HOW IT WORKS

Activate your account and populate your profile

Gather evidence and reflect upon your learning in relation to NMC Code of Practice in your portfolio between revalidations or professional reviews

Complete a self-assessment ahead of your review

EQ360° guides your nurses and midwives quickly and easily through the revalidation process, without the need for paper forms

Your reviewer or manager confirms you have met the criteria for revalidation

Complete review with reviewer or manager, including a review of PDP where relevant

Confirm you are happy with the reviewer or manager's statements and provide feedback on the process

KEY BENEFITS

- Ability to draw on the support of Equiniti 360 Clinical's wealth of experience from providing doctors' revalidation solutions to over 100 clients
- Assurance that you are meeting your revalidation obligations to both the NMC and your nurses
- Simple interface and in-built support makes EQ360° easy to use
- Web-hosting ensures EQ360° can be accessed from a variety of devices ensuring that your nurses can perform revalidation tasks whenever it suits them
- There is no need for paper and no need to integrate with your existing IT
- Efficient, tried and tested implementation requires little effort
- Access via the Government's Digital Marketplace (G-Cloud) ensures low procurement costs

WHY CHOOSE US?

Equiniti 360 Clinical are the revalidation experts. Our solutions are tried and tested, making the complex simple for 200 healthcare organisations across the United Kingdom.

Equiniti's expertise is backed up by the fact that we work with over 100 revalidation clients, are the only provider with a national contract, in Wales, are renowned for the usability of our systems and are the only provider in the market place employing trained revalidation experts to help end-users and administrators navigate the revalidation process.
